

# EXTRA CRAFTY

## Dragon's Breath

### BREATH FIRE LIKE A DRAGON!

#### MATERIALS NEEDED

You will need a toilet paper roll (or cut a paper towel roll down to size), crayons (colored pencils or markers), glue, and tissue paper (or tissues).

#### ACTIVITY

- Draw scales on the outside of the tube to turn it into a dragon's nose.
- Draw two U shapes on the bottom of the tube. Connect the U shapes as shown in the picture, then cut along that line. Fold the U shapes up. These are the dragon's eyes!
- Cut several strips of red or yellow tissue paper.
- Don't have tissue paper? Color with a red marker on a clean disposable tissue and then cut strips.
- Glue just the end of each strip inside the end of the tube opposite the dragon's eyes and let dry. This is the dragon's fire!

**Blow through the tube to make it look like you are a dragon breathing fire!**
