

# HANDS ON

## Unicorn Hair Lacing

### CRAFT MATERIALS

You will need a piece of cardstock or thin cardboard (try using an empty cereal box), decorating materials (crayons, colored pencils, markers, glitter, etc.), scissors, a hole punch, yarn or ribbon or colorful paper, and a stick (optional).

### INSTRUCTIONS

- You will find a unicorn template attached.
- Cut out the unicorn template and trace on cardstock or cardboard.
- Decorate your unicorn as you like and then cut it out.
- Use a hole punch to create holes down the neck of the unicorn.
- If using yarn or ribbon, cut a loop about 6 inches long for each hole you punched. If using colorful paper, cut lots of strips about ¼ inch wide.
- Push yarn or paper through each hole and tie a knot to make a mane for your unicorn! If using paper, be gentle so you don't tear it!

**You now have a unicorn with a beautiful mane.**

### MORE IDEAS

If you happen to find a long smooth stick in the yard or have an unused dowel rod lying around, you can tape your unicorn head to it to make a unicorn hobby horse!
