## **SCIENCE MINDED**

## Magical Magnetic Wand

## MAKE A CREATURE WANDER AROUND A PAPER PLATE WITH A MAGICAL MAGNETIC WAND!

You will need a paper plate, a stick or straw (this will be your wand), a magnet, a few paper clips, scissors, and glue.

- First, decorate your wand (or don't) however you want.
- . Then, glue the magnet to the tip of the wand.
- Next, cut out the creatures (or people) from the template and fold on the dotted lines.
- . Then, use a paper clip on each end of the template to hold it together (see pictures).
- Place the creature paperclip side down on the paper plate.
- Make it magically move by placing the tip of the wand to the underside of the plate and moving it around.

USE YOUR WAND TO SEE WHAT OTHER THINGS AROUND YOUR HOUSE ARE MAGNETIC.
