

EXTRA CRAFTY

Wind Blown Viking Ship

Supplies:

Egg carton

Paint & Paintbrush

Colorful paper

1-2 Straws

Glue

Scissors

HOW TO:

- Cut out a section of the bottom of the carton this is about 2 egg cups by 3 egg cups. Or, you can use the whole bottom for a long boat!
- Patch any holes, and paint your pirate ship. Set aside to dry.
- Take one to three 4" X 4" squares of paper and design your sails.
- Punch or cut holes in the top and bottom the size of the straw.
- Cut straw(s) and slide through the holes to form sails and masts.
- When the paint is completely dry, glue the straws into the boat.
- Fill a container with water and blow gently on the sails to move your boat around the "sea." For even more fun, build two boats and have a race!
