

Fireworks Decoration

Fireworks for the 4th of July are a nation-wide tradition!

To hold this celebration, you need a day with clear skies and no wind!

Celebrate with this 4th of July fireworks decoration!

SUPPLIES:

- Red, blue, & white construction paper
- Pipe cleaners
- Hole punch
- Red, blue & white cardstock
- Tape
- Oatmeal container with lid
- Pencil

INSTRUCTIONS:

- Cover the oatmeal container with the colored paper cut into strips.
- Cut 6-8 stars from the card stock and punch a hole in the middle of each. Push the tip of a chenille stem into the end of each star and knot to keep in place.
- Curl each chenille stem by wrapping around a pencil, then remove the pencil. (See photo). Poke the bottom of each chenille stem into the lid of the oatmeal container and tape to secure.
- Cut a large circle from the blue poster board or card stock and attach to the bottom of the container. (A plate makes a great template for the circle.)

WRAP PIPE CLEANERS AROUND PENCIL TO CURL
