HANDS ON
Cotton Ball Cloud Painting

SUPPLIES:
-large dark paper (navy, black, grey)   -white or light blue paint
-cotton ball   -clothespin   -bowl   -tape

WARNING: This is a messy craft.
Take appropriate precautions!

- Tape dark paper to the work surface. As it gets wet from the paint, the paper might curl up. Taping it down keeps this from happening!
- Pour white paint in bowl. Drop in a cotton ball.
- Pick up the cotton ball with the clothespin, keeping your fingers well back from the paint.
- Hold clothespin over paper and pinch to release cotton ball. The cotton ball will splat paint on the paper. **This is the start of your cloud!**
- Pick the cotton ball back up with the clothespin and drop into the paint.
- Repeat until the clouds look like you want!
