

BRAIN TEASERS:

Mystery Silhouettes

**In the dark of the night you were chasing a suspect over rooftops and through dark alleys...
when a sudden thunderstorm flew in and you lost the suspect (bummer!).**

**Just before they got away, a flash of lightning silhouetted them against the
sky...**

Now you are pretty sure you know who it is (hooray!).

**Can you identify the suspects (popular characters) on the
next page just from their silhouette?**
