

## EXTRA CRAFTY:

# Underwater Hidden Scene

One of the Greatest mysteries in the world is that of the Bermuda Triangle. Make your own underwater mystery scene with this craft!

### Materials you will need:

-zip lock bag                      -permanent markers                      -black paper  
-Yellow and white paper for flashlight                      -scissors                      -glue

### Instructions:

1. Draw or trace a picture on the clear side of the plastic bag. Keep the Ziploc edge facing to your right side. You will need to use permanent markers because washable ones will wipe off the plastic. I drew an underwater scene on one bag and then and traced a hidden picture page on another bag.
2. Cut the bottom of the bag open so you can slide your flashlight in. Slip a black sheet of paper in the bag.
3. Draw a triangle on the white paper to be the light from the flashlight. Draw a rectangle on the yellow paper to be a handle. Glue the pieces together.
4. Slip your flashlight in through the bottom of the bag and light up scenes in your picture!
