

## PAPER CRAFT:

# A Sleuth's Best Friend

If you've been thinking that what your mystery solving crime fighting team really needs is a canine companion, then this craft is for you! Build an accordion dog, a dog that can stretch all the way around the bad guys!

1. Pick one of the dog patterns attached and color with crayons, markers or paint.
2. Cut out your dog.
3. Cut down the line in the center of the dog pattern dividing your dog into front and back.
4. Cut a letter size piece of paper in thirds top to bottom. Fold both pieces back and forth in an accordion pattern. Glue the two fans together to make one really long fan.
5. Glue each end of the fan to the front and back ends of your dog. Now you have an accordion dog to help you sniff out clues!!
