

SELF-EXPRESSION:

Personalized Disguise Kit

Sometimes a spy is in a situation where it might be dangerous to be recognized! In these cases, it is wise to have some disguises up your sleeve so you can go incognito. You can use the templates on the following pages to design your own personal disguises to suit your specific spy needs.

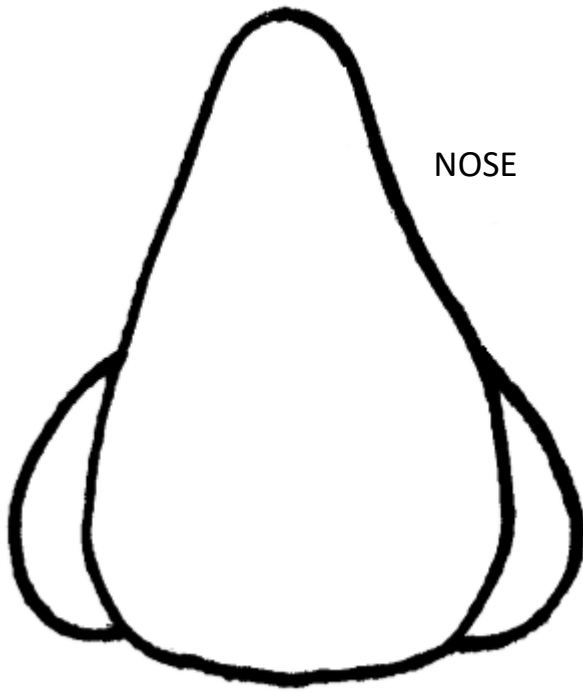

SUPPLIES:

- scissors
- template
- cardstock
- hole punch
- glue or tape
- crayons or markers
- yarn

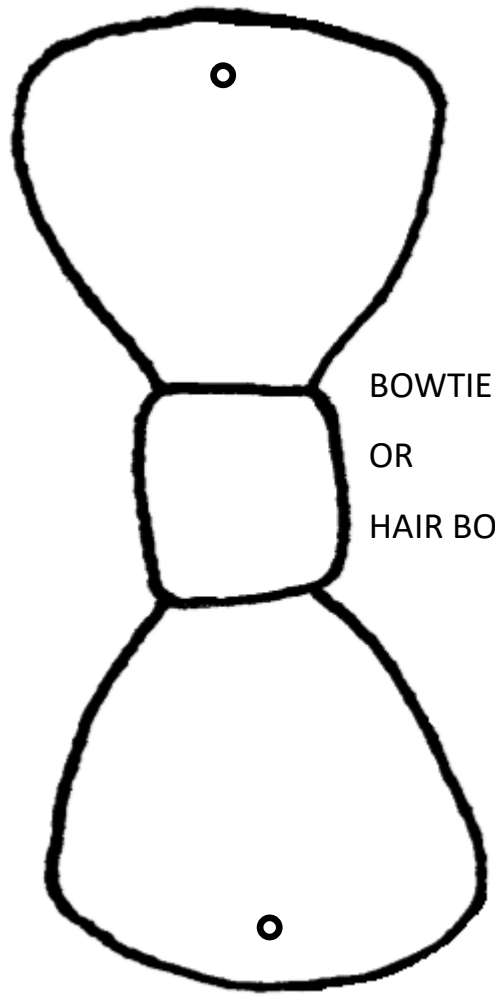

Directions:

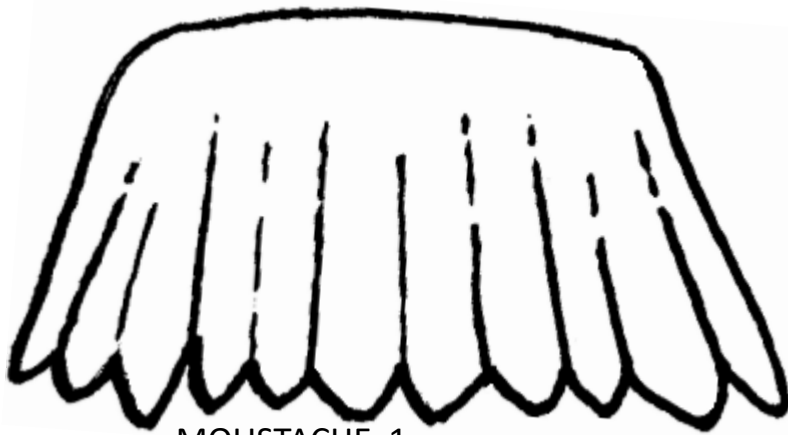

- Cut out the templates and trace on cardstock of your choice.
- Color and decorate each disguise piece that you have chosen to your own particular style.
- Begin constructing your disguise by gluing or taping the earpieces to the glasses and folding to sit comfortably on your ears.
- Glue or tape the nose, eyebrows, and moustache to the glasses if you choose to use them.
- Punch holes at the dots in the beard. Tie a string to each hole. You will tie the string behind your head to wear the beard. Repeat for the hat and bow tie/hair bow as desired.
