

FIELD TRIP: Plants Around the World

Visit a local plant nursery

Do you notice any plants that are native to *another* country besides the U.S.?

How many plants can you spot that are not native to the U.S.?

Make a list of your favorite exotic plants.

Why do you like them? Is it their color, shape, smell, name, or all of these?

Snap a photo or sketch a drawing of your favorite exotic plant.

Maybe one day you can plan a trip to visit your favorite exotic plant in its native country!
